

Schaum's Outlines of Theory and Problems of

Eisenhower Library owns about 70 volumes of this series. Topics include:

- ❖ MATH (e.g., elementary math, calculus, statistics, algebra, geometry)
- ❖ CHEMISTRY (e.g., basic, organic, biochemistry)
- ❖ PHYSICS (e.g., basic, quantum mechanics)
- ❖ COMPUTER SCIENCE (e.g., C++, relational databases, logic, Java)
- ❖ HUMAN ANATOMY AND PHYSIOLOGY

They are online through NetLibrary. To access them:

- 1) Go to the library catalog (<http://catalog.library.jhu.edu>), type in the title or some keywords, and click the URL in the record; or
- 2) Go to Netlibrary at www.netlibrary.com and search keywords.

NetLibrary books may be viewed online or “checked out” for 2 hours. To “check out” a book, free registration is required.

Four books in this series are owned in **print only**. They are all in Science Reference on C Level:

Schaum's Outline...of Beginning Physics I: mechanics and heat
Sci Ref QC127.H24 1995

Schaum's Outline...of Fluid Mechanics and Hydraulics
Sci Ref TA357 .G515 1995

Schaum's Outline...of Physics for Pre-Med, Biology, and Allied Health Students
Sci Ref QH505 .H23 1998

Schaum's Outline...of Thermodynamics for Engineers
Sci Ref TJ265 .P68
